

Steca Pt1000

Immersion sensor

Immersion sensors allow temperature recording in liquid and gaseous media and are designed for installation in existing or on-site immersion sleeves. The standard measurement unit contains a Pt1000 temperature sensor, according to DIN EN 60 751, class B, in a two-core connection.

Product features

- For installation in immersion sleeves

	Pt1000
General	
Measuring range	-50 °C ... +230 °C
Temperature sensors	
Diameter	6 mm
Length silicon cable	1500 mm
Bushing length	50 mm
Bushing material	stainless steel
